DESCRIPTORS- *SPECIAL LIBRARIES, *GOVERNMENT LIBRARIES, *LIBRARY FACILITIES, *LIBRARY SURVEYS, LIBRARY COLLECTIONS, *LIBRARY SERVICES, LIBRARY EQUIPMENT, USE STUDIES, DISTRICT OF COLUMBIA

SPECIAL LIBRARIES ARE DEFINED FOR THE PURPOSE OF THIS STUDY AS REFERENCE AND/OR RESEARCH LIBRARIES ORGANIZED AND ADMINISTERED BY A SEPARATE DEPARTMENT, INDEPENDENT AGENCY, AUTHORITY, COMMISSION OR COMPONENT OF THE EXECUTIVE, JUDICIAL, OR LEGISLATIVE BRANCH OF THE U.S. GOVERNMENT, AND NATIONAL LIBRARIES. EXCLUDED ARE QUASI-ACADEMIC LIBRARIES, QUASI-PUBLIC LIBRARIES, SCHOOL LIBRARIES FOR DEPENDENTS, PATIENT LIBRARIES IN HOSPITALS, VARIOUS LIBRARIES OUTSIDE THE CONTINENTAL U.S., AND VERY SMALL, SPECIALIZED COLLECTIONS. THE SURVEY PROVIDES INFORMATION ON THE ESTABLISHMENT AND LOCATION OF 437 SPECIALIZED LIBRARIES, THEIR ORGANIZATION, STAFF AND OPERATING EXPENDITURES, SUBJECT AREAS OF THEIR COLLECTIONS, PRIMARY OCCUPATIONS OF THEIR USERS, AND LIBRARY FUNCTIONS. A COPY OF THE QUESTIONNAIRE USED IN GATHERING THE DATA APPEARS IN THE DOCUMENT. THIS DOCUMENT IS AVAILABLE AS GPO NUMBER FS5.215--15067 FOR 75 CENTS FROM SUPERINTENDENT OF DOCUMENTS, U.S. GOVERNMENT PRINTING OFFICE, WASHINGTON, D.C. 20402. (CC)

PREFACE

This report presents detailed data on the special libraries which are serving the Federal Government in the United States. It is the third comprehensive study which deals with the activities and functions of these libraries which have been established during the past 167 years.

The first general report about these libraries appeared as "Libraries of the Federal Government," Chapter X of Public Libraries in the United States of America, Washington, D.C., Department of Interior, 1876. In discussing their origins, this study explained that:

> "They have grown out of the exigencies of . . . administration. Before the government was removed from Philadelphia to Washington, members of Congress and the executive officers of the several departments were obliged to avail themselves of the courtesy of a proprietary library. The new Capitol offered no such facilities. The Library of Congress was therefore begun, and has grown, as needs required, until it now numbers over 300,000 volumes and 60,000 pamphlets.
>
> As the business of administration increased, and its cares were divided by the creation of new departments, a reference library for each was found necessary for the proper conduct of business. In like manner, it became essential from time to time to form libraries in a number of the bureaus of the departments. With three or four exceptions, these libraries have been formed with reference to the special duties devolving on the respective bureaus." 1/

The second report, "Federal Departmental Libraries; A Summary Report of a Survey and a Conference" by Luther H. Evans, was published by the Brookings Institution in 1963. These two reports contain some quantitative data but they are primarily descriptive. The major contribution of the Evans study was to propose policies and actions for the development of Federal libraries. With regard to statistics, Evans recommended that "it would be desirable for the Library Services Branch of the Office of Education to determine the kinds of statistics that would be most generally useful, advise agencies on the statistics they should maintain, and itself compile or consolidate and analyze some of the more basic data." He concludes that "agencies have not made sufficient use of statistics in their library operations. Librarians, for the most part, have also been unconvinced of the importance of reliable data for good management. As a result, too little is known

---

1/ U.S. Office of Education. Public Libraries in the U.S.A., Washington, D.C., Department of Interior. 1876. p.252

about library costs - the personnel and funds required for various objectives and services." Evans believes that to remedy this situation, some central agency or body must become responsible for developing comparable definitions and statistical measures. [2]

As a result of the recommendations of the Evans study, a Federal Library Committee was created by the Bureau of the Budget with the responsibility to coordinate various activities and establish general policies and guidelines for Federal libraries. In line with these activities, the Federal Library Committee and the Office of Education, National Center for Educational Statistics, discussed in the spring of 1965 the possibility of conducting the first statistical survey of special libraries which serve the Federal Government.

Statistics of academic, public (those in posts, camps and stations), school and patient libraries in hospitals of the Federal Government remain to be collected.

In the fall of 1965, the Federal Library Committee and the Office of Education's National Center for Educational Statistics established a cooperative arrangement by which the Committee undertook to prepare the survey forms with the Office of Education's assistance and circularize the Federal libraries. The Center undertook to edit and process the returns. In fulfilling its agreement, the Center contracted in April of 1967 with the School of Library and Information Science at The University of Wisconsin - Milwaukee for the editing and machine processing of the returns and the writing of this report.

INTRODUCTION

SCOPE OF SURVEY

This report presents comprehensive statistical and related information on special libraries serving the Federal Government which, for the purpose of this survey, are defined as reference and/or research libraries organized and administered by a separate department, independent agency, authority, commission or component of the Executive, Judicial or Legislative Branch of the U.S. Government. Also included are National libraries. Excluded from this survey are quasi-academic libraries (these at the service academies), the quasi-public libraries (those at military posts, camps and field stations), school libraries for dependents, patient libraries in hospitals, and various libraries outside the Continental U.S. (i.e. U.S. Information Agency libraries and those in the military installations around the world). Excluded also are the smallest collections of informational materials of a specialized nature with less than one man-year devoted to their maintenance and use and/or those expending less than $10,000 per year, including salaries.

The survey provides specific information on the establishment and location of the specialized libraries serving the Federal Government, their organization, staff and operating expenditures. Data are also given for the primary subject area of these collections and primary occupations of their users. Library functions performed traditionally and by automated means are tabulated.

SURVEY PROCEDURE

The form on which this survey is based was developed as a cooperative effort by the Federal Library Committee and the U.S. Office of Education. It was designed to conform to the pattern of statistical library reporting as developed in the Office of Education over the last few years.

The questionnaires were mailed out in November 1965, requesting data for Fiscal Year 1965. Two follow-ups were made which brought the total returns to 437 or 86% of the estimated universe of 508 libraries falling within the scope of the survey as defined above. Of the 437 libraries, reports are available for 358. This results from the fact that, of the 175 field station libraries of the Veterans Administration, only 96 reported on the survey form. Summary data on the other 79 were provided by VA headquarters. Thus, most of the detailed tabulations in this publication are based on 358 special Federal libraries.

The questionnaires were returned to the Federal Library Committee and turned over to the School of Library and Information Science in April of 1967. After editing and machine programming, preliminary runs of the data were made in May and June of 1967 for use of the National Commission on Libraries.

SUMMARY DATA

The American library scene covers a wide range of organizations and educational institutions which maintain library and information centers for informational and educational purposes. Table A indicates that among the four largest identifiable groups, special Federal libraries are the smallest in terms of all categories. They serve primarily Federal legislators and officials - but extend their services directly and indirectly to all segments of the population.

TABLE A

SELECTED DATA ON U.S. LIBRARIES, BY TYPE, FISCAL YEAR 1965

Type of library	Number of libraries	Volumes	Expenditures for library materials
Public and Private Elementary and Secondary School Libraries (1956-66)..	[1]49,000	209,000,000	$ 85,000,000
Public and Private College and University Libraries (1965-66)	2,200	265,000,000	111,000,000
Large Public Libraries (Serving populations of 25,000 and over)	1,100	201,000,000	59,000,000
Special Federal Libraries ..	437	35,000,000	10,000,000

[1] 1962-63

Special Federal libraries have a number of unique features. They duplicate fewer items than most other libraries, have collections which present concentrations in specific subject fields unparalleled anywhere (i.e. National Library of Medicine, Bureau of the Census) and, due to copyright legislation and exchange arrangements, receive vast amounts of material free of charge.

For purposes of this survey, the libraries were divided into types according to the agencies they serve. (Table B)

TABLE B

NUMBER OF RESPONDING SPECIAL FEDERAL LIBRARIES, BY TYPE

Library	Number	Percent distribution
Total	437	100
Civilian Agencies:		
National Libraries	3	1
Executive Departmental Libraries	71	16
VA Field Station Libraries *	175	40
Others	52	12
Department of Defense libraries	136	31

* Although 96 VA field station libraries responded directly to the survey, summary reports for all 175 VA libraries were supplied by VA headquarters and are included in summary tables where indicated.

The Department of Defense libraries represent 38 percent of all libraries in the survey while the Civilian agencies account for the remainder. By and large, Federal libraries are not directly coordinated in their operations because each library is primarily attached to a specific agency. Procurement procedures and operational guidelines change with the parent organization which provides for their support. Similarities exist due to the dependence of all agencies regarding personnel on the Civil Service Commission. Additional cooperative activities are being developed by the Federal Library Committee.

The three National libraries are distinguished from all others by the size of their operations, the financial support accorded to them by Congress, and their integrated operations which are now in the process of regionalization, a transitional phase pointing toward their establishment of National library systems or information networks. Although the Veterans Administration Library System has service points throughout the country, it is not a "National" library system as defined in this report.

Table C shows the distribution of library resources, staff and expenditures by region. For the purpose of this study, Region I indicates the District of Columbia and the neighboring areas in Maryland and Virginia comprising the Washington Metropolitan Region; other parts of the United States are designated as Region II.

TABLE C

SELECTED DATA ON RESOURCES, EXPENDITURES AND STAFFING OF SPECIAL FEDERAL LIBRARIES, BY REGION *

Item	Total	Washington Metropolitan Area	U.S., excluding Washington Metropolitan Area
Resources			
Volumes	33,742,315	23,769,796	9,972,519
Serial titles	312,775	227,567	85,208
Government documents and technical reports	14,311,647	9,042,298	5,269,349
Microform	4,735,450	1,390,235	3,345,215
Maps	4,759,494	4,030,443	729,051
Expenditures			
Total operating expenses	$58,187,838	$44,365,464	$13,822,374
Salaries	$39,396,795	$31,151,414	$ 8,245,381
Library materials	$ 9,049,928	$ 5,359,043	$ 3,690,885
Binding and rebinding	$ 1,026,480	$ 746,495	$ 279,985
Other expenses	$ 8,701,635	$ 7,101,512	$ 1,600,123
Staff**			
Total positions	3,884	2,865	1,019
GS 5 and below	687	378	309
GS 6-9	1,775	1,303	472
GS 10-13	1,226	993	233
GS 14 and above	196	191	5

* These figures include only the 96 VA libraries responding directly to the survey.

** Does not include non-professional personnel in Library of Congress.

Among the data on resources the only exception to the concentration of materials in Region I is the holdings of microform in Region II, an obvious economic measure. The comparatively large holdings of government documents and reports in Region II indicate the need for these materials for field operations.

Of all expenditures, Region II receives 29 percent of the total outlays, 41 percent for library materials, but only 20 percent for salaries. This small proportion for salaries is explained by the distribution of higher salaried positions (of the 1422 top positions only 238 are in Region II).

TABLE D

AVERAGES FOR REPORTING SPECIAL FEDERAL LIBRARIES (EXCLUDING NATIONAL LIBRARIES), BY REGION AND TYPE

Item	Metropolitan Washington			Aggregate United States			
	Civilian departments	Department of Defense	Independent agencies	All civilian agencies	Department of Defense	Veterans Administration

Nonprofessional positions filled, end of year	7	5	4	2.5	4	1	---
Vacant**	2	2	2	1	0	0	---

* Figures in parentheses represent the mean figure for all 175 VA libraries as supplied by VA Headquarters. Other figures in this column represent the mean figure for 96 individual VA libraries.

** Vacancy figures should be used with caution because of the small number of replies received. They are included here merely to indicate that a shortage of personnel does exist.

To provide a statistical profile of the average Federal Library, Table D offers a Summary of averages for reporting libraries. In order to assure more valid comparisons, data for the National Libraries were excluded. The Department of Defense libraries in Region II are more numerous than civilian agency libraries - a situation which is reversed in Region I.

Basic Tables 1, 2 and 3 provide a listing of special Federal libraries by date of establishment, occupation of users, subject area of collections, resources, operating expenditures, personnel data, equipment and traditional activities.

A directory of all respondent libraries is given in the appendix.

ORGANIZATIONAL PATTERNS

Age and Location

The establishment of Federal libraries had its beginnings when Congress decided in 1800 to set up its own library, which was destroyed during the British occupation of Washington. It was revived in 1815 when Thomas Jefferson persuaded Congress to buy his own collection which became the foundation of the present (second) Library of Congress. Over the years, many additional Federal libraries came into existence; but their establishment was usually coincidental and not in accord with a predetermined plan. "In most cases," Evans found, "the jurisdiction of a new agency has been defined without reference to the maintenance of a library. Then, as the agency's work proceeded and a sufficient demand for books arose, steps were taken to establish small collections without much forethought as to the material to be acquired, the staffing, the place of the library in the departmental organization, or the manner of organizing the collection and providing adequate space for its growth..."1/

The number of libraries has spectacularly increased since 1940 (Table E). Of all special Federal libraries, about two-thirds have come into existence since Pearl Harbor and one-third between the War of 1812 and World War II.

TABLE E

ESTABLISHMENT DATES OF SPECIAL FEDERAL LIBRARIES, 1815 to 1965

Date	Number	Percent
Before 1900	38	11
1900 - 1939	84	23
1940 - 1965	236	66

1/ Evans, Luther H. et al., Federal Departmental Libraries, Washington, D.C., Brookings Institution, 1963. p.3-4.

CHART 1

CUMULATIVE NUMBER OF SPECIAL FEDERAL LIBRARIES, BY DATE OF ESTABLISHMENT AND REGION, 1900-1965

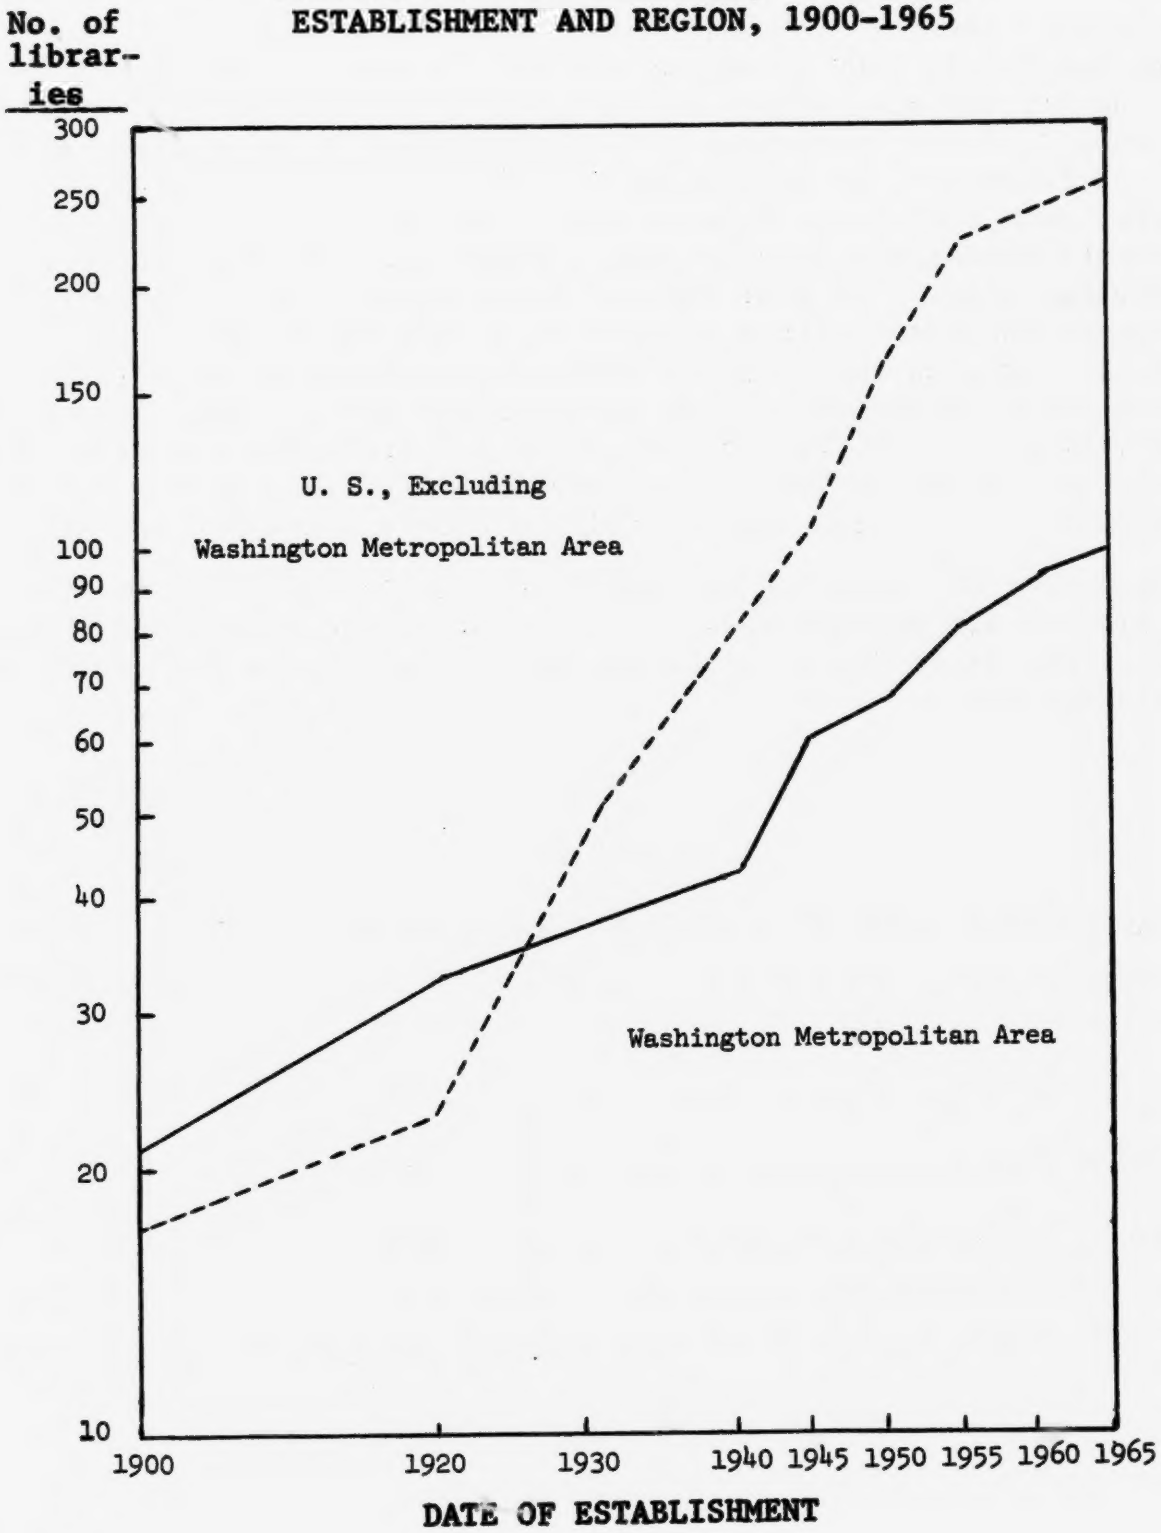

CHART 2

CUMULATIVE NUMBER OF SPECIAL FEDERAL LIBRARIES, BY DATE OF ESTABLISHMENT AND TYPE, 1900-1965

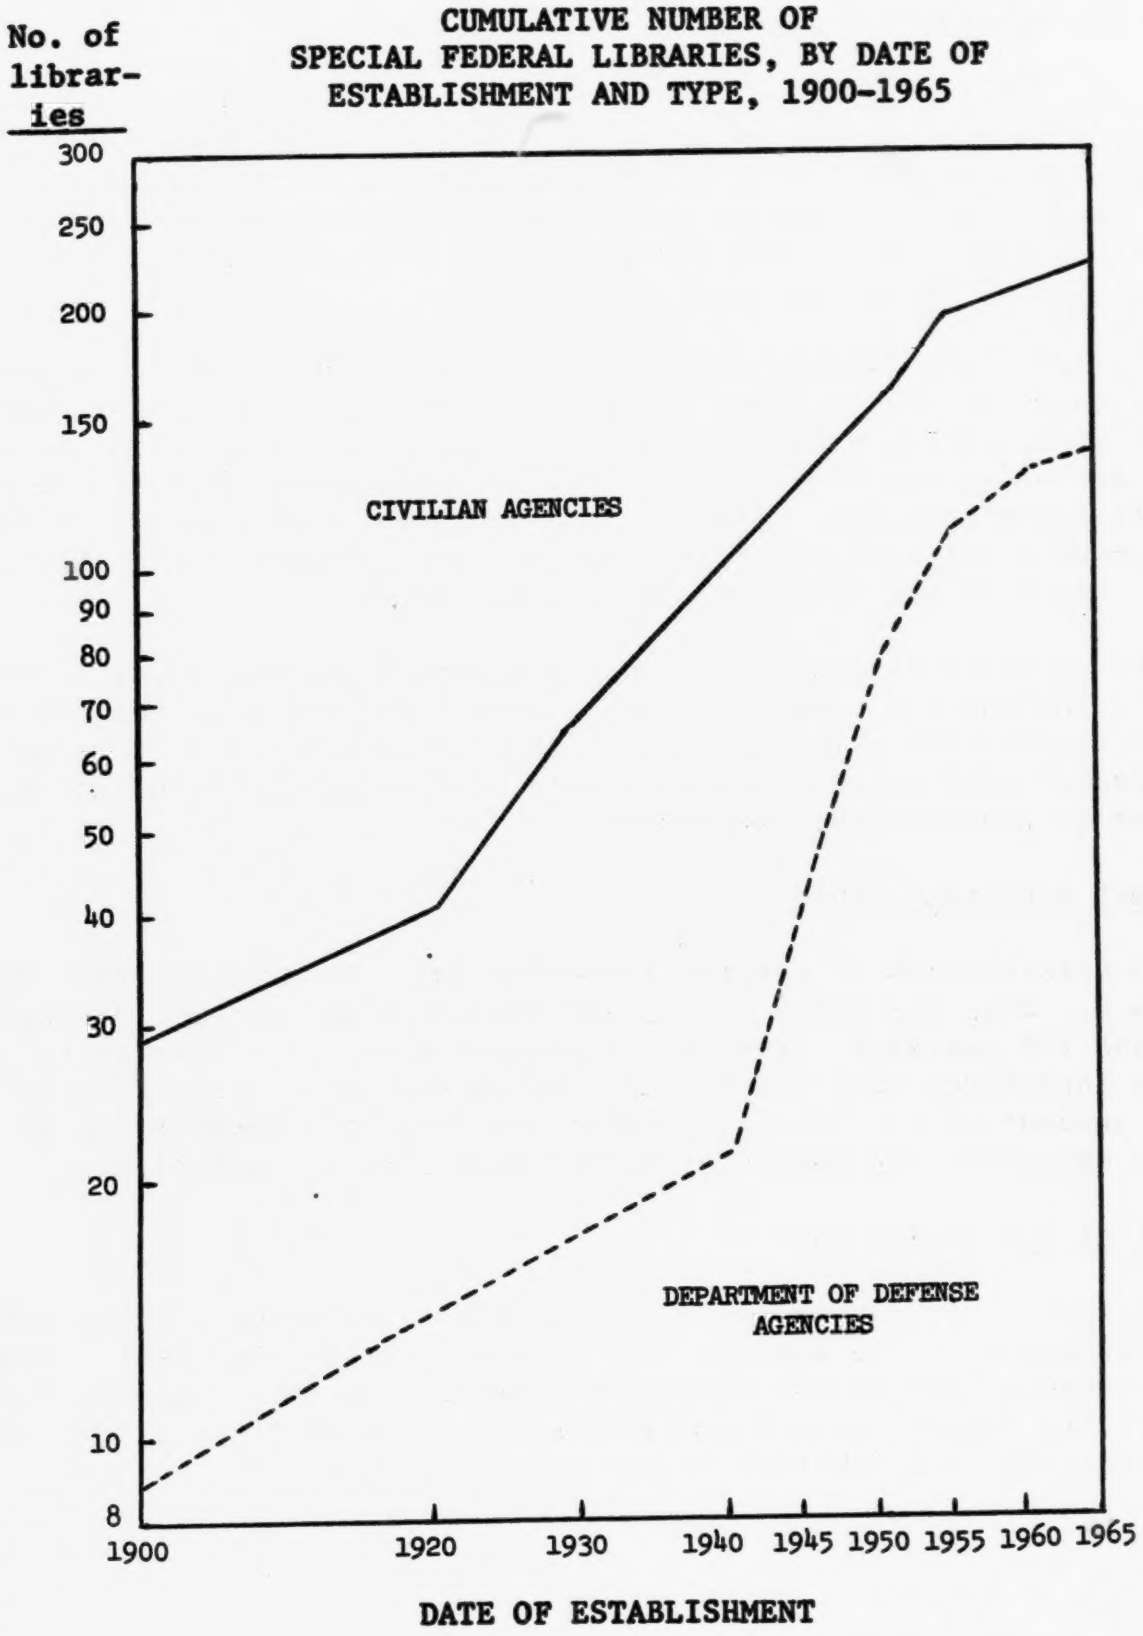

Chart 1 indicates that the rapid increase of special Federal libraries outside the Washington Metropolitan Area took place between 1920 and 1955. In the past ten years, the rate of growth was about the same in and outside the Washington Metropolitan Area.

Of the 358 libraries in this survey, 28 percent (99) are located in the Washington Metropolitan Area, and 10 percent (35) in California, (half of which belong to the Navy), and 5 percent (18) are located in Pennsylvania. There are 12 libraries each in Massachusetts and Virginia, 11 in Illinois and Texas, 9 in Ohio and Georgia, and the remaining libraries are widely scattered among the other States.

The impact of historic events on the establishment of libraries is shown in Chart 2. Up to 1920, libraries increased at a similar slow rate for both civilian and military agencies. Due to the depression in the 1920's and 30's, new civilian agencies with libraries were set up by the Roosevelt Administration. Between 1940 and 1955, the military library establishments outpaced civilian agencies; and during the 60's the pace for both civilian and military agencies slackened.

Both charts illustrate that during times of stress, particularly military tension, the organizational needs of Federal agencies are at a peak and require the establishment of new agencies which in turn have new and increased informational requirements, resulting in the creation of new libraries to provide those services.

Government Agencies Served

The distribution of special libraries among Federal agencies is shown in Table B. Over one-third of the 358 libraries are serving the Department of Defense (38 percent). The second largest group of libraries (27 percent) has been integrated into the library system of the Veterans Administration. Only 20 percent of the libraries serve the Executive Departments of the civilian agencies, the remainder serve other civilian agencies.

Regulations Concerning Use

All special libraries serve two publics. The primary group consists of the personnel of the agency. The secondary group is outside users who are permitted access to the library's materials on the premises or through inter-library loan. Table F summarizes the policies of Federal libraries concerning their availability to the general public.

TABLE F

SUMMARY DATA ON AVAILABILITY OF SPECIAL FEDERAL LIBRARIES TO THE GENERAL PUBLIC

Use pattern	Total		Civilian departments and other agencies */		Defense agencies	
	Number	Percent	Number	Percent	Number	Percent
Without restrictions..	18	5.0	16	7.0	2	1.0
With restrictions	168	47.5	118	53.0	50	37.0
Not open to public ...	168	47.5	85	40.0	83	62.0
Total	354	100.0	219	100.0	135	100.0

*/ Including VA libraries responding directly.

As one would expect, access to the libraries of defense agencies is considerably more restricted than to libraries of civilian agencies because of the restricted nature of their work. About 60 percent of the defense agency libraries are not open to the public, as compared with 40 percent of the civilian agency libraries. More than half of the civilian agency libraries (53 percent) permit use with restrictions, compared with only about one-third (37 percent) of the defense agency libraries.

The nature of restrictions fall into three categories which can be summarized as follows:

1. Use on and off library premises.
2. Use by generalists and specialists.
3. Use of certain types of materials.

On-premise use by qualified specialists such as lawyers, physicians, and scientists is generally permitted and even encouraged; whereas on-premise use by the general public is restricted in a majority of libraries and high school students are frequently specifically excluded.

Off-premise use takes two forms - loan privileges and interlibrary loans. Loan privileges are generally denied even to the primary clientele in order to keep collections available for reference purposes. Interlibrary loan requests from other libraries in the same or related fields are honored because Federal libraries depend heavily on this type of service for their own clientele. Classified material of a military or scientific nature imposes restrictions which for obvious reasons have to be rigidly enforced and require special guards and security measures.

Without further quantitative evaluation, one may assume that, with the exception of classified materials, special Federal libraries, particularly those of civilian agencies, follow policies similar to those of special non-governmental libraries.

LIBRARY CLIENTELE AND ACTIVITIES

Occupation of Primary Users

As shown in Chart 3, the primary users fall into five identifiable groups. Almost half of these users (47.5 percent) are in the health sciences, one-fifth (19.5 percent) work in the area of technology, (16 percent) in the physical, biological and earth sciences and about the same number in the social sciences and cultural arts (9.5 percent) and the law (7.5 percent). Further breakdown of user frequencies is given in Table 12 and the Code in the Appendix. These figures represent numbers of libraries, not numbers of individual users. Statistics based upon individual users might vary significantly.

Traditional Library Activities

There are many library activities being performed which are not subject to quantitative measurement and evaluation. The generally identifiable activities are given in Table G.

The frequency of activities listed shows wide variation with some notable differences between the libraries in the civilian and military agencies.

The most frequently listed activities (85 percent - 100 percent) are the same for libraries of civilian and military agencies with a slight difference in rank order except that cataloging and classification are done by all military agency libraries but only by two-thirds (68 percent) of the civilian agency libraries.

In the medium range of activities (50 percent - 84 percent) there are no significant rank order changes between the two types of libraries.

In the low range activities group (10 percent - 49 percent) the only significant difference appears to be that in 46 percent of the cases civilian agency libraries (primarily in the Veterans Administration) administer general reading collections, a practice followed by only 18 percent of the military agencies. In most cases, general reading collections in military agencies are organized separately and thus excluded from this survey. It seemed surprising that more than half of both types of agencies issue publications regularly. The preparation of abstracts - a significant contribution to agency research efforts - is routinely handled by only about one-third of the civilian and military agency libraries (39 percent and 33 percent respectively) and translations are prepared in only one-fourth of the libraries (23 percent and 28 percent respectively).

CHART 3

OCCUPATIONS OF PRIMARY USERS OF SPECIAL FEDERAL LIBRARIES

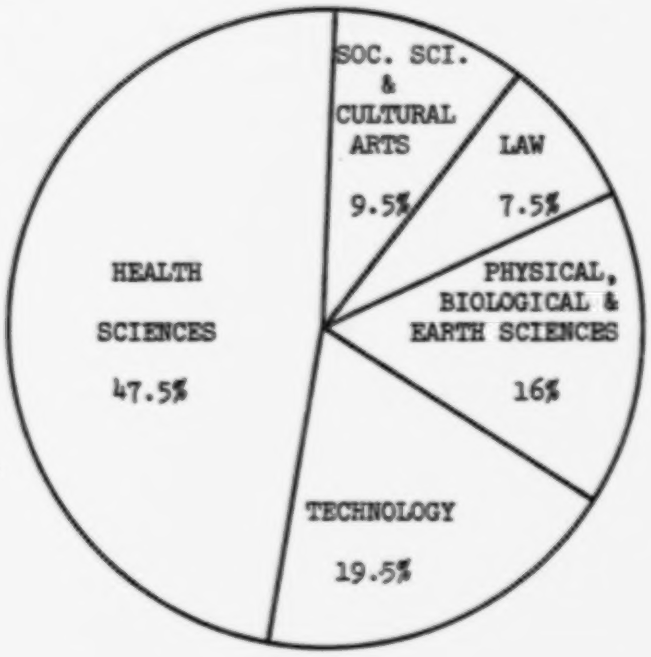

CHART 4

PRIMARY SUBJECT AREAS
of COLLECTIONS OF SPECIAL FEDERAL LIBRARIES, 1965

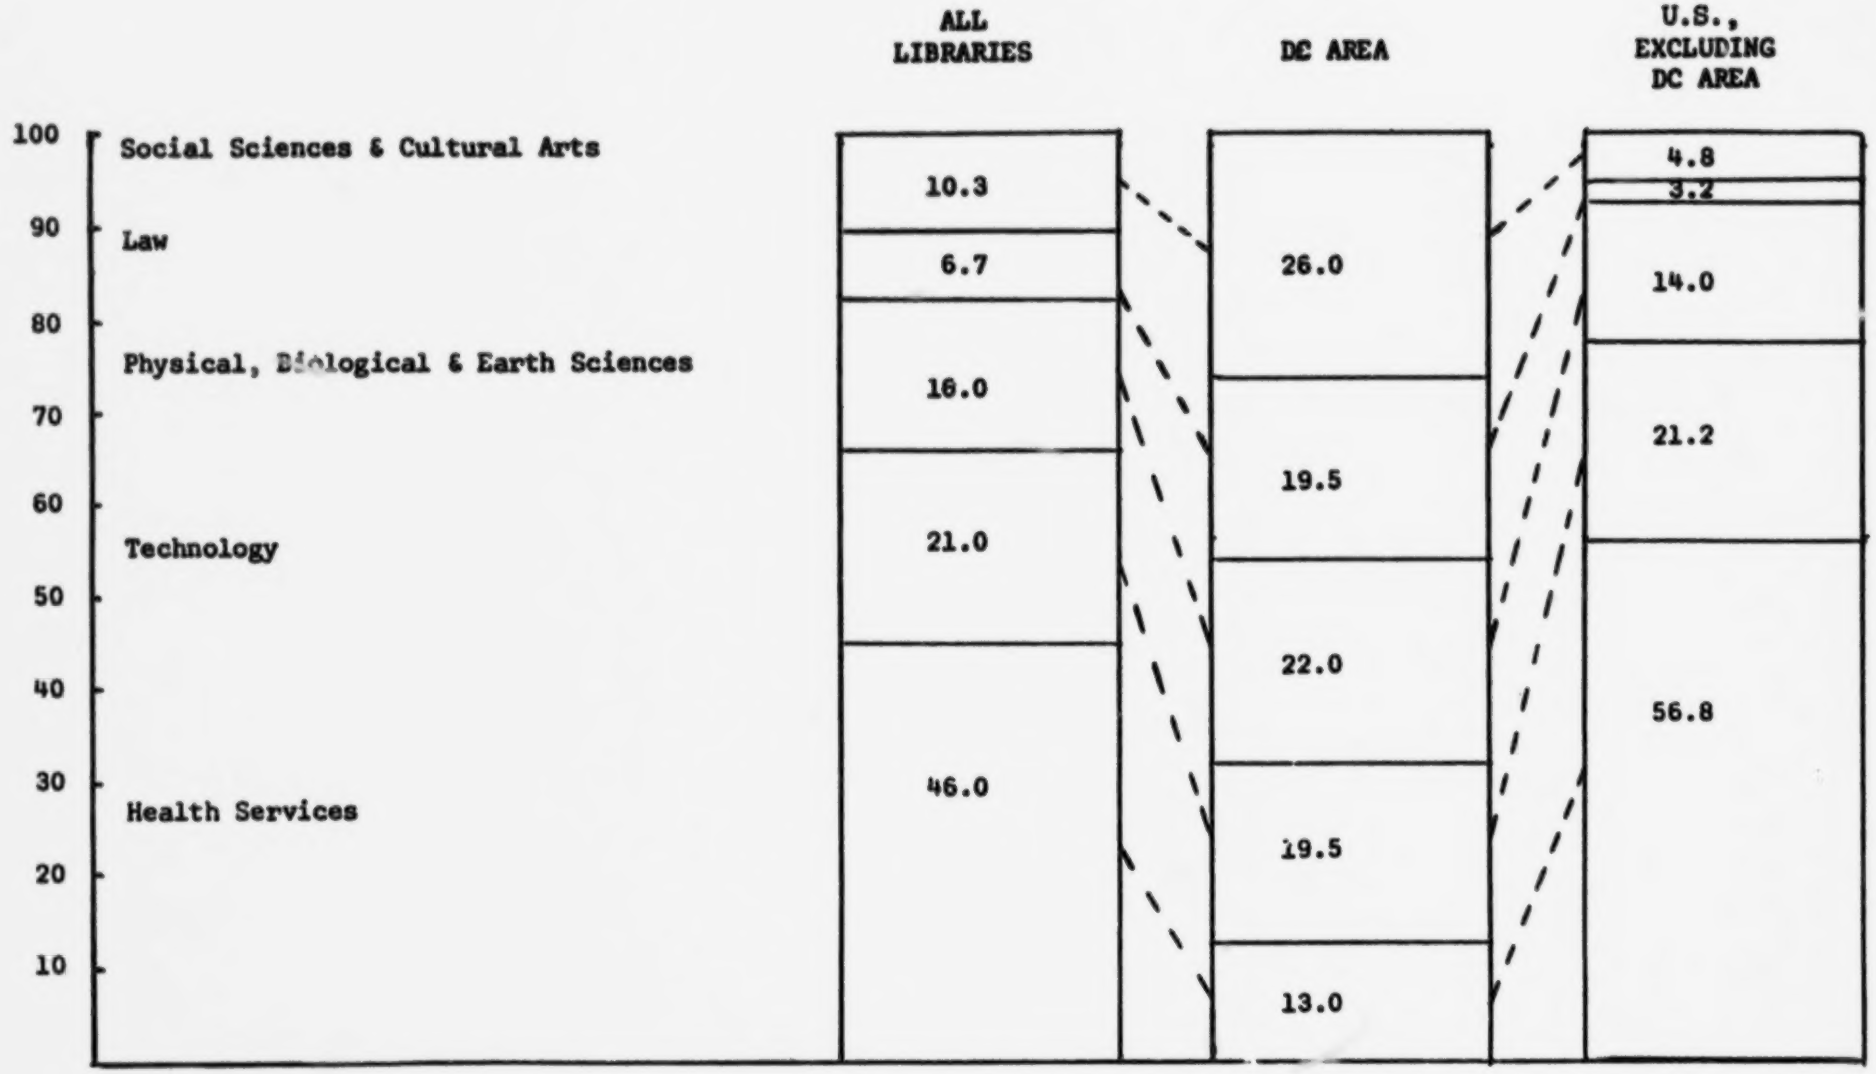

TABLE G

LIBRARY ACTIVITIES OF SPECIAL FEDERAL LIBRARIES

LIBRARY ACTIVITY	LIBRARIES REPORTING		
	TOTAL	ALL CIVILIAN AGENCIES	DEPARTMENT OF DEFENSE
Cataloging and classification of collection	287	151	136

Preparation of acquisition lists	321	193	128
Compilation of bibliographies upon request	327	208	119
Preparation of abstracts upon request	110	65	45
Preparation of translations upon request..	80	52	38
Serves as GPO depository	43	30	13
Serves as document depository for other governmental agencies (AEC, NASA, etc.)	50	34	16
Serves as document depository for other report series	79	50	39
Administers a general reading collection in addition to own special library	126	101	25
Regularly issues publications for distribution to the public or library clientele	189	116	73

Automated Activities and Equipment

The number of libraries engaged in automation activities is given in Table H:

TABLE H

NUMBER OF SPECIAL FEDERAL LIBRARIES REPORTING AUTOMATION ACTIVITIES, BY AGENCY AND STATUS

AGENCY	OPERATIVE	CONSIDERING OR PLANNING
Civilian Departments *	25	35
Departments of Defense **	27	43
Totals	52	78

* Including VA System serving 175 libraries.

** Including Naval Ships System Command and National Oceanographic Data Center.

According to this information automation activities and the use of automated equipment by Federal libraries in 1965 were limited, particularly for civilian agencies, because only 12 percent had operative activities and another 16 percent were considering or planning automated activities. By comparison, the libraries in the military agencies have easier access to automated equipment and are somewhat more heavily engaged in such work; 20 percent of their libraries had them operative in 1965 and another 32 percent was considering or planning such programs.

TABLE I

AUTOMATION ACTIVITIES OF SPECIAL FEDERAL LIBRARIES by AGENCY AND TYPE OF ACTIVITY

Automation activities	All libraries	Civilian departments	Department of Defense
Accounting	12	6	6
Acquisitions	17	8	9
Circulation Control	16	8	8
Catalog card production	22	6	16
Book catalog production	8	6	2
Serial record or union list..	15	5	10
Bibliographies prepared	20	9	11
Reference queries	18	7	11
Graphic storage of materials.	4	1	3
Telecommunication devices ...	3	1	2
Other	9	6	3

The activities engaged in are reported in Table I. Of the most frequently recorded activities, the production of catalog cards holds first place due to the stress given by the military agencies. The preparation of bibliographies stands in second and reference queries in third place. The activities which seem promising to automate, as reported in the literature, are acquisitions procedures, circulation control and serial record processing which stood in fourth to sixth place.

Other automated activities listed only by one respondent each included the following:

Document information retrieval
Book indexing
Report inventory and distribution
Selective dissemination
Patron control
Thesauri construction
Legislative indexing

In order to carry out the above-mentioned automated activities, libraries reported the use of the following equipment:

Computers	Quantity	Size
IBM 1401	16	Small
IBM 1620, 1410, 1440	3	Small
UNIVAC 1004	2	Small
HONEYWELL 200	1	Small
GE 225	1	Small
IBM 7040, 7044, 7049	5	Medium or large
UNIVAC 1107 and LARC	2	Large

Other equipment mentioned:

Flexowriters, other automatic typewriters, TWX and other communication devices, Xerox.

Indications are that during the last two years automation activities in Federal libraries have been on the increase.

RESOURCES OF LIBRARIES - MATERIALS AND STAFF

Subject Areas of Collections

To assess the holdings of library resources a code for major user occupation and subject areas was devised. The summary concerning subject resources is shown in Chart 4. The Code is given in the Appendix and additional data appear in Table 12. Differences between the D.C. area and all other parts of the Continental United States are rather startling.

For all areas combined, the major Federal library material resources are in the health sciences (46 percent); but in the States these collections amount to 57 percent and in the D.C. area to only 13 percent. Technology accounts for one-fifth of the collection rather uniformly throughout the country (21 percent, 20 percent, 21 percent). The concentration of materials in the physical, biological and earth sciences is considerably greater in the D.C. area (22 percent) than in the other States (14 percent). The most significant difference of strength of collections is found in the social science and cultural arts (26 percent in D.C. area and less than 5 percent in other States) and law (20 percent in the D.C. area and 3 percent in the other States).

Types of Materials in Collections

Summary data concerning library holdings are given in Table J. These figures are probably larger than anyone expected. In some instances, they are probably incomplete because some items were not reported by all libraries. The importance of National libraries is best appreciated when their holdings are compared with National totals. A unique characteristic of special libraries in the Federal Government is the large proportion of their collections devoted to non-book materials.

TABLE J

SUMMARY DATA ON RESOURCES OF SPECIAL FEDERAL LIBRARIES

Item	Total of all libraries		National libraries		All others	
	Amount	No.	Amount	No.	Amount	No.
Number of libraries	---	358	---	3	---	355
Volumes	33,742,315	352	15,759,596	3	17,982,719	349
Serial titles	312,775	321	139,552	3	173,223	318
Government Documents and technical reports ...	14,311,647	194	5,292,799	1	9,018,848	193
Microform	4,735,450	139	602,232	2	4,133,218	137
Vertical file in feet ..	81,867	237	8	1	81,859	236
Maps	4,759,494	105	2,886,455	1	1,873,039	104

Further breakdowns of resource materials may be found in basic tables 4A and B, 5A, B, and C, and 6A and B.

Staffing Patterns

As in the case of resources, the position of the Federal libraries in the D.C. Metropolitan Area overshadows the rest of the country as they employed nearly half of all staff members (48.4 percent) in 1965. Looking at the general staffing pattern of the Federal employment, librarians seem to rank very low. As shown in Table K, in 1965 there were, in the middle management positions of GS-14 and 15, only 154 positions of which 132 were in the National libraries. In the top management positions, super grades GS-16 and above, a total of 42 positions was reported. All but one of these positions were allocated to the three National libraries. In the United States, excluding the D.C. Metropolitan Area, there were only five librarians in grades GS-14 and GS-15, four of whom worked in defense agency libraries. Detailed listings of positions by region can be found in Tables 10A and B.

Among chief librarians - 84 percent were in the 1410 series of the Civil Service Commission classification. More than half of these heads of libraries (56 percent) were GS-9 to GS-11 and made less than $11,300 annually. For details regarding chief librarians, Table 11 should be consulted. The 1965 pay schedule for various GS grades is given in the Appendix.

TABLE K

SUMMARY DATA ON PERSONNEL OF SPECIAL FEDERAL LIBRARIES

Item	Total		National libraries		All others	
	Libraries	Positions	Libraries	Positions	Libraries	Positions
Total 1/	355	3,884	3	1,840	352	2,044
Professional positions						
GS-9 and below	305	1,535	3	805	302	730
GS-10 - GS-13	197	1,226	3	723	194	503
GS-14 - GS-15	20	154	3	132	17	22
GS-16 and above	4	42	3	41	1	1
Nonprofessional positions 1/						
GS-5 and below	175	687	2	78	173	609
GS-6 - GS-8	64	191	2	60	62	131
GS-9 and above	15	49	1	1	14	48

1/ Excludes nonprofessional personnel in the Library of Congress.

OPERATING EXPENDITURES

Library budgets vary among types of libraries and even from one agency to another, but most library budgets consist of the basic items of operating expenditures: salaries (or personnel costs), library materials, and binding and rebinding.

The definitions for these items are derived from Library Statistics: A Handbook of Concepts, Definitions, and Terminology and read as follows:

> OPERATING EXPENDITURES.--Costs necessary to the rendering of library service, i.e., expenditures for personnel, library materials, binding and supplies, repair or replacement of existing furnishings and equipment, and costs necessary for the maintenance of plant.
>
> SALARIES (Personnel Costs).--A category of library expenditures comprising items relating to the staffing of the library, except those for which the library contracts with an outside party; e.g. salaries and wages before any deductions for social security, hospitalization, and retirement.
>
> LIBRARY MATERIALS.--Those book, periodical, and nonbook items provided by a library for its clientele. This does not include equipment with which to see, hear, or read the items (e.g. projectors, phonographs, readers).
>
> BINDING AND REBINDING.--The process of producing a single volume from leaves, sheets, signatures, or issues of periodicals, or of covering such a volume, either initially, as in the case of "binding," or as a thorough restoration of a volume, involving resewing and a new cover, as in the case of "rebinding." For statistical purposes, repairing and mending are not included with these activities.

Table L provides the percentage distribution of the basic budget items for various types of libraries. National libraries, as compared with the other types, show a particularly low percentage of operating expenditures for library materials and a correspondingly high percentage for salaries due to extensive exchange programs and the ability of these libraries to secure free copies of materials through the provisions of U. S. copyright legislation.

TABLE L

SELECTED LIBRARY EXPENDITURE DATA (IN PERCENT), by TYPE OF INSTITUTION AND CATEGORY

Item	Public libraries serving 25,000 population and over	College and university libraries	Special Federal Libraries		
			National	Civilian agencies	Defense agencies
Total operating expenditures	100.0	100.0	100.0	100.0	100.0
Salaries	65.6	49.2	70.3	66.5	61.0
Library materials	17.0	33.4	8.6	27.9	24.5
Binding and rebinding	1.2	3.8	1.6	2.4	2.0
Other	16.2	13.6	19.5	3.2	12.5

The difference in budget items between the various types of special Federal libraries appears in the listing of average expenditure data in Table D which indicates that Defense agency libraries in the D.C. Metropolitan Area spend more on salaries than those in other parts of the country.

TABLE M

SUMMARY OPERATING EXPENDITURE DATA (IN DOLLARS) OF SPECIAL FEDERAL LIBRARIES, BY CATEGORY

Item	All libraries		National libraries		All other	
	Amount	No.	Amount	No.	Amount	No.
Total operating expenditures	58,187,838	341	33,504,641	3	24,683,197	338
Salaries	39,396,795	335	23,521,888	3	15,874,907	332
Library materials...	9,049,928	305	2,839,917	3	6,210,011	302
Binding and rebinding	1,026,480	272	541,332	3	485,148	269
Other	8,701,635	249	6,601,504	3	2,100,131	246

Actual expenditures as reported in Table M indicate that the Federal Government spent about $60 million in 1965 for its special library operations, of which about $40 million went for salaries and $10 million for library materials. Binding, reported by only 272 institutions, came to slightly over $1 million and other operating expenditures to about $9 million.

Further budget breakdowns are given in basic tables 7A and 7B for the D.C. Metropolitan Area and other parts of the country. Measures of variability for expenditure data in the D.C. area by type of agency are supplied in basic tables 8A, B and C, and in the United States, excluding the Washington Metropolitan Area, by type of agency in basic tables 9A and 9B. They will permit the administrator of a Federal library to place himself among his "peer" group by providing the 10th and 90th percentile and the mean and median positions.

TABLE 1A - SELECTED MANAGEMENT DATA OF SPECIAL FEDERAL LIBRARIES,

(In columns 2, 4, and 6, the numerals refer to agency occupation and subject codes in Appendix 2. In column 5 the letters indicate

FOOTNOTES FOR TABLE 1A

1/ For other holdings, see Annual Report of the Librarian of Congress, 1965. pp. 109-113.

2/ Report excludes office and field installations collections.

3/ Other holdings include 16 mm film, filmstrips and slide sets.

4/ Other holdings include file on Indian photographs and card index to Indian literature and a special collection of Dept. of Interior publications.

5/ Other holdings include 150,000 Denver Photographic Library negatives.

6/ Other holdings include over 8,000,000 patents of various nations.

7/ Other holdings include city, state and regional planning and urban highway planning publications.

8/ Report excludes Food and Drug Branch Library.

9/ Report excludes other HumRRO Division Libraries. The GWU HumRRO Office and the Military Assistance Institute are not specifically a part of the Department of Defense but operate under contract with DOD. There are other similar contractors not included. These two have been included as examples only.

10/ Other holdings include 100,000 Geodetic Control Aerial photographs and 3,000,000 Geodetic Control Data cards.

11/ Other holdings include 1235 army studies.

12/ Other holdings include 2500 engineering drawings and 2500 photographs.

13/ Report excludes Underwater Explosion Research Division. Other holdings include test data envelopes and 270,000 model, propeller and miscellaneous microfilmed plans.

14/ Other holdings include 56 sets of foreign language records.

15/ Other holdings include Federal supply catalogs and regulations.

16/ Report excludes libraries in regional offices. Other holdings include manuals and instruction books, Department of Defense and Federal Aviation Agency specifications and 300,000 Department of Defense nomenclature cards.

17/ Other holdings include photographs and approximately 25,000 slides.

18/ Other holdings include exhibitions catalogs and museum bulletins.

19/ Other holdings include Russian collection, propaganda collection, survey research collection, and agency archives collection.

FOOTNOTES FOR TABLE 1B

1/ Other holdings include 77 language tapes and kits.

2/ Other holdings include 1250 R & D motion picture reels.

3/ Other holdings include 25,000 black and white photo negatives and 5000 slides.

4/ Other holdings include 100,000 bibliographic cards on world forestry literature.

5/ Other holdings include approximately 10,000 specifications.

6/ Other holdings include 3200 training and field manuals for MOS tests.

7/ Other holdings include USGS field records and map groups and 130,000 photographs.

8/ Other holdings include specifications and standards.

9/ Other holdings include 35,000 specifications and standards.

10/ Other holdings include 26,340 AIA manufacturers' catalogs.

11/ Other holdings include 187,000 drawings and master tracings.

12/ Other holdings include Medical Literature Indexes 1881 to present.

13/ Other holdings include 15 file cabinets of military and Federal specifications and standards.

14/ Other holdings include 500,000 TIP and AD author, subject and source cards.

15/ Other holdings include card and book catalogs of other technical libraries.

16/ Other holdings include 16 mm film reels and picture files.

17/ Other holdings include 28,000 reproducible drawings.

18/ Other holdings include 100,000 military and Federal specifications.

19/ Other holdings include film library of 2500 reels of motion picture release prints.

20/ Other holdings include large clipping file.

21/ Other holdings include 205,000 aerial photographs.

22/ Other holdings include 5000 electronic instruction books.

23/ Other holdings include 10,000 unaccessioned manuals (approximate).

24/ Other holdings include 2500 color slides.

25/ Other holdings include 290,000 engineering drawings and specifications.

26/ Other holdings include pictures, slides and manuscripts.

27/ This report excludes MCAS Library, Santa Ana, California.

FOOTNOTES FOR TABLE 3A

1/ For other major library services (Col.19), see Annual Report of the Librarian of Congress, 1965, pp. 114-121, 123-133, 152-162.

2/ Other services (Col.19) include legislative histories, card bibliography on bookkeeping, catalog card sets supplied to agency field libraries.

3/ Other services (Col.19) include preparation and publishing of Index Medicus; translation of foreign biomedical literature and its English publication; recurrent computer bibliographies, decentralized MEDLARS centers.

4/ Other services (Col.19) include procurement for bureaus and foreign service post libraries.

5/ Other services (Col.19) include maintenance of card index to all current Court of Claims decisions.

6/ Other services (Col.19) include main purchasing for all Geological Survey offices.

7/ Other services (Col.19) include servicing of library deposits for field agencies including ships and marine centers.

8/ Other services (Col.19) include distribution of foreign patents to examiners.

9/ Other services (Col.19) include preparation of current reference cards for soil materials pertinent to roads.

10/ Other services (Col.19) include original cataloging of Dept. of Labor and International Labor Organization publications for Library of Congress.

11/ Other services (Col.19) include cooperative cataloging for Library of Congress.

12/ Other services (Col.19) include maintenance of Union Catalog of Books and Union List of Serials in naval libraries in Washington area.

13/ Other services (Col.19) include control of classified material controlled by the Bureau of Naval Weapons.

14/ Other services (Col.19) include ONI technical intelligence and DDC liaison services.

15/ Other services (Col.19) include digesting and indexing of opinions of the Judge Advocate General and the Boards of Review.

16/ Other services (Col.19) include preparation of legislative histories of Congressional legislative proposals.

17/ Other services (Col.19) include maintenance of antitrust case status file.

18/ Other services (Col.19) include administration of Federal Fire Council Fire Safety Library.

19/ Other services (Col.19) include preparation of legislative histories of all pertinent legislation.

20/ Other services (Col.19) include maintenance of card file of digest of all tax cases from beginning of the court.

FOOTNOTES FOR TABLE 3B

1/ Other services (Col.19) include guide talks.

2/ Other services (Col.19) include preparation of Guide to NCEL Documents.

3/ Other services (Col.19) include DDC services.

4/ Other services (Col.19) include support of University of Pennsylvania tenant library and Vitro biochemistry laboratory library.

5/ Other services (Col.19) include training technical employees in techniques of literature searching.

6/ Other services (Col.19) include surveillance and acquisition of Chinese science publications with dissemination of abstracts.

7/ Other services (Col.19) include distribution of AEC classification guides within Air Force.

8/ Other services (Col.19) include JAWTIG Subgroup for weapon data subject heading list.

9/ Other services (Col.19) include liaison between U.S. and European libraries.

10/ Other services (Col.19) include guided museum tours, lectures and exhibits.

Report Form

TECHNICAL NOTES

AGENCY CODE:--In order to classify Special Federal libraries, an agency code, based on the U.S. Government Organization Manual, was developed. Libraries of civilian executive departments appear in the order of the date of establishment of the departments they serve. Other civilian agency libraries, including those serving Congress, the Office of the President, and the Judiciary, appear in U.S. Government Manual sequence and the independent agencies in alphabetical order. The Department of Defense organization was grouped into Department of Defense proper, Departments of the Army, Navy and Air Force, followed by other defense agencies.

USER OCCUPATION AND SUBJECT AREA CODE:--The major occupations of the Special Federal library clientele and the significant subject areas of the collections were grouped into ten general categories. Five of these categories cover the sciences and technology and the remainder cover the other major disciplines.

ARRANGEMENT OF TABLES:--Institutional data for Special Federal libraries are given in tables 1A and 1B, 2A and 2B, and 3A and 3B. In these tables, libraries in the D.C. Metropolitan area are listed according to the agencies they serve and in the United States they are listed first by State and then according to the agencies they serve.

For comparative purposes, several of the text and basic tables are divided into two regions, the D.C. Metropolitan Area (comprising the District of Columbia and the adjoining counties in Maryland and Virginia) and the Aggregate United States (comprising the non-adjoining counties in Maryland and Virginia and the 48 other States.

FOOTNOTES:--In tables 1A and 1B, footnotes were limited to the branches not directly included in the Survey and to "other holdings" which did not fall into the standard categories.

In the directory tables 3A and B, the footnotes describe major library services rendered which were not specified in the report form.

ESTIMATES:--Estimated budget data in tables 2A and 2B are indicated by the letter "E" in the appropriate columns.

INDEX OF SPECIAL FEDERAL LIBRARIES:--For cross reference purposes, libraries are listed in the Index by agency and within agencies alphabetically by State.

AGENCY CODE

CIVILIAN EXECUTIVE DEPARTMENTS

107	Department of State

PROPOSED SURVEY OF SPECIAL LIBRARIES SERVING THE FEDERAL GOVERNMENT, 1965

Please answer all questions. Unless otherwise specified, all annual data are to cover this library's reporting year which ended during fiscal year 1965. If exact figures are not available, please estimate and write "Est." after the figure. If question is not applicable, write "NA" in the space provided. If additional space is needed, attach a separate sheet and identify items.

DEFINITIONS

For the purposes of this survey, a special library serving the Federal Government may be defined as a reference and/or research library organized and administered by a separate department, independent agency, authority, commission or component of the Executive, Judicial or Legislative Branch of the U.S. Government. Also included will be national libraries.

Excluded are collections of information and materials with less than one man year devoted to their maintenance and use and/or expending less than $10,000 per year, including salaries. Archival collections, elementary school and public libraries run by the Federal government and District of Columbia shall be excluded.

1. LIBRARIAN - A person responsible for the operation and/or administration of this library.
2. PROFESSIONAL LIBRARY STAFF - A professional library staff member is a person performing work that requires education, training, and skill in the theoretical or scientific aspects of library work as distinct from its mechanical and clerical aspects.
3. BRANCH LIBRARY - An auxiliary facility with separate quarters, a permanent basic collection of library materials, under the administration of this library, serving primarily employees and/or officials of the federal government.
4. CLIENTELE - The users and borrowers of this library. Specifically, the employees and/or officials served with some regularity by this library.
5. GENERAL PUBLIC - Users of the library other than employees of your agency or the government.
6. Subject collections should preferably be described by using either the Subject Headings Used in the Dictionary Catalogs of the Library of Congress or Sears List of Subject Headings as an authority for broad subject categories such as: Agriculture, Commerce, Engineering, History, Law, Medicine, Public Health, Transportation.
7. VOLUMES - A volume is any printed, typewritten, mimeographed, or processed work, bound or unbound, that has been catalogued and/or fully prepared for use. Exclude bound periodical volumes.
8. GOVERNMENT DOCUMENTS - Any publication in book, serial, or non-book form bearing a government imprint. The publications of Federal, State, local, and foreign governments and of world organizations, such as United Nations, European Common Market, etc., are included in this category. Excluded are technical reports.
9. TECHNICAL REPORT - An official or formal record giving details and results of a specific investigation of a scientific or technical problem.
10. SERIAL - A publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.) memoirs, proceedings, transactions of societies, and may include monographic and publishers' series. (Practically speaking, a publication which lends itself to listing in visible indexes or other posting records.)
11. PERIODICALS - A serial issued in parts which are not monographs and which usually contain articles by several contributors. It generally has a distinctive title and the successive numbers or parts are intended to appear at stated or regular intervals, and as a rule, for an indefinite period.
12. STAFF POSITIONS BY FULL-TIME EQUIVALENTS - To compute "full-time equivalents (FTE)" (of part-time personnel), add the total number of hours worked (or budgeted in the case of vacancies) per week by all part-time paid personnel or budgeted personnel and divide by the number of hours in your full-time work week. Report these calculations as decimals, converting to the nearest tenth of a position. DO NOT include volunteer personnel.
13. BUDGETED POSITION - A position for which funds have been allocated in the library budget.
14. TRANSACTION - The basic operational unit for handling a single item, e.g. circulation of one book, cataloging of one title, answering one reference question, etc.
